

Anti-UV outdoor-use cables, resistant to water, oil and temperature

Suitable for LED streetlights and more

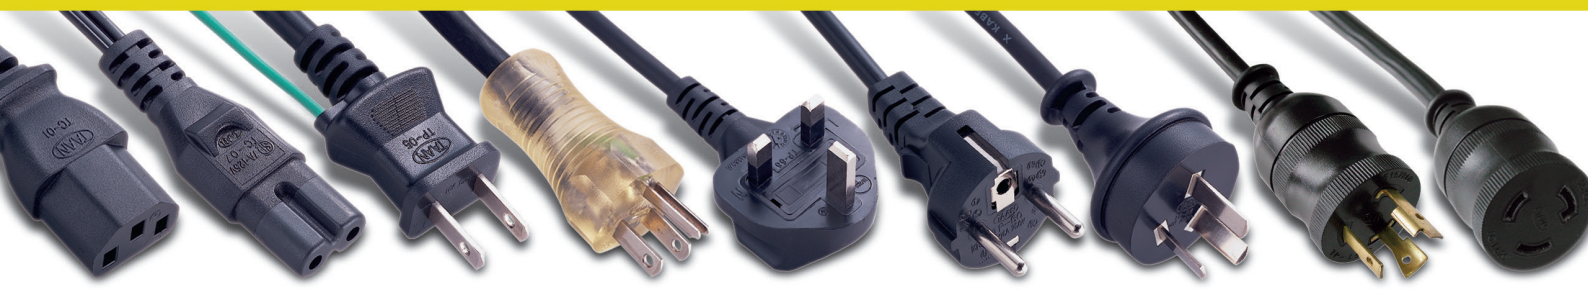

300V SJTW/SJTOW/SJTOOW
600V STW/STOW/STOOW
SPT-1W
SPT-2W

NISPT-1/UL21230
NISPT-2/UL21229

Our new outdoor-use cables protect against UV, water, oil and extreme temperatures. They can also withstand all kinds of weather conditions and provide superior performance, meeting the varied demands of customers. These, along with our wide range of cable assemblies, are manufactured in our automated 14,000-square-meter facilities in Taiwan. This technology helps us maintain a capacity of 20 million pieces every month, so we can efficiently fill your volume orders.

Our product range includes UL-certified PVC cables that are resistant to oil and water along with customized cables for renowned makers. You can also find HAR-certified rubber cables in our selection.

Everything that comes off our assembly line complies with the RoHS Directive and ships with various market approvals. View more of our products online today.
